

LeMaitre Q3 2023 Financial Results

November 1, 2023

BURLINGTON, Mass., Nov. 01, 2023 (GLOBE NEWSWIRE) -- LeMaitre (Nasdaq:LMAT), a provider of vascular devices, implants and services, today reported Q3 2023 results, announced a \$0.14/share quarterly dividend and provided guidance.

Q3 2023 Financial Results

- Sales \$47.4mm, +21% (+16% organic) vs. Q3 2022
- Gross margin 65.0%, +80 bps
- Op. income \$9.2mm, +49%
- Op. margin 19%
- Net income \$7.5mm, +38%
- Earnings per diluted share \$0.33, +36%
- Cash up \$6.8mm to \$97.0mm

Bovine patches (+22%), valvulotomes (+27%), bovine grafts (+15%) and carotid shunts (+24%) drove Q3 sales. APAC sales increased 30%, EMEA 24% and the Americas 20%.

The gross margin increased to 65.0% in Q3 (vs. 64.2% in Q3 2022) driven largely by price increases.

Operating income of \$9.2mm was up 49% vs. Q3 2022. Operating expenses grew 14% year-over-year due to sales rep growth (118 to 136) and higher commissions, as well as CE-related regulatory costs.

George LeMaitre, Chairman and CEO, said "21% sales growth in Q3 and 49% op. income growth resulted from price increases, restrained op. expenses and a return-to-hospital by patients and staff. Our profitability and \$97.0mm cash-on-hand provide safety and strategic optionality."

Use of Non-GAAP Financial Measures

LeMaitre management believes that in order to better understand the Company's short- and long-term financial trends, investors may wish to consider certain non-GAAP financial measures as a supplement to financial performance measures prepared in accordance with GAAP. Non-GAAP financial measures are not based on a comprehensive set of accounting rules or principles and do not have standardized meanings. These non-GAAP measures result from facts and circumstances that may vary in frequency and/or impact on continuing operations. Non-GAAP measures should be considered in addition to, and not as a substitute for, financial performance measures in accordance with GAAP. In addition to the description provided below, reconciliation of GAAP to non-GAAP results is provided in the financial statement tables included in this press release.

In this press release, the Company has reported non-GAAP sales growth percentages after adjusting for the impact of foreign currency exchange, business development transactions, and/or other events, including EBITDA. This press release also provides guidance for operating income and EPS excluding the special charge relating to the closure of our St. Etienne factory and revenue related the Aziyo distribution agreement. The Company refers to the calculation of non-GAAP sales growth percentages as "organic." The Company analyzes non-GAAP sales on a constant currency basis, net of acquisitions and other non-recurring events, and the aforementioned non-GAAP profitability measures to better measure the comparability of results between periods. Because changes in foreign currency exchange rates have a non-operating impact on net sales, and acquisitions, divestitures, product discontinuations, factory closures, and other strategic transactions are episodic in nature and are highly variable to the reported sales results, the Company believes that evaluating growth in sales on a constant currency basis net of such transactions provides an additional and meaningful assessment of sales to management. The Company believes that the presentation of guidance described above for operating income and EPS provides an alternative and meaningful view of the Company's profitability.

Forward-Looking Statements

The Company's current financial results, as discussed in this release, are preliminary and unaudited, and subject to adjustment. This press release contains forward-looking statements within the meaning of the U.S. Private Securities Litigation Reform Act of 1995. Statements in this press release regarding the Company's business that are not historical facts may be "forward-looking statements" that involve risks and uncertainties. Forwardlooking statements are based on management's current, preliminary expectations and are subject to risks and uncertainties that could cause actual results to differ from the results expected, including, but not limited to, the status of our global regulatory approvals and compliance with regulatory requirements to market and sell our products both in the U.S. and outside of the U.S.; the risk of significant fluctuations in our quarterly and annual results due to numerous factors; the risk that assumptions about the market for the Company's products and the productivity of the Company's direct sales force and distributors may not be correct; the risk that we may not be able to maintain our recent levels of profitability; the risk that the Company may not realize the anticipated benefits of its strategic activities; risks related to the integration of acquisition targets; the acceleration or deceleration of product growth rates; risks related to product demand and market acceptance of the Company's products and pricing; the risk that a recall of our products could result in significant costs or negative publicity; the risk that the Company is not successful in transitioning to a direct-selling model in new territories and other risks and uncertainties included under the heading "Risk Factors" in our most recent Annual Report on Form 10-K, as updated by our subsequent filings with the SEC, which are all available on the Company's investor relations website at http://www.lemaitre.com and on the SEC's website at http://www.sec.gov. Undue reliance should not be placed on forward-looking statements, which speak only as of the date they are made. The Company undertakes no obligation to update publicly any forward-looking statements to reflect new information, events, or circumstances after the date they were made, or to reflect the occurrence of unanticipated events.
